Medicolegal Experience and Training

I have undertaken medicolegal work since 2003. I accept on average 300 personal injury reports annually. These range from simple soft tissue injuries to complex multiple trauma cases. My personal injury workload is split between claimant instructions 80%; defence instructions 10% and joint instructions 10%.

My formal training in producing reports and giving evidence in court has been awarded by Bond Solon in 2011. I keep abreast of all the latest developments in medicolegal issues through my registration with medicolegal societies and my professional society the BOA. I am registered with Medco and have completed the CPD training.

I am very familiar with the court environment having appeared in court on numerous occasions including the high court giving evidence on high value cases.

Medical negligence work represents a significant proportion of my workload. I have a thorough working knowledge of clinical litigation through my medicolegal practice and my work in the NHS and my wider role in the health care system.

Clinical and Management Experience

Basic Surgical Training	1992 to 1997	Merseyside
Research Fellow	1997 to 1998	Oswestry
Higher surgical training	1998 to 2003	Stoke / Oswestry
Consultant post	2003 to date	University Hospital of North Midlands

This is a busy level one trauma centre taking patients from a wide area and specialising in the treatment of severe multiple injuries. I participate on the trauma rota and involved in the treatment of all aspects of orthopaedic trauma. My specialist interests are knee and shoulder surgery.

Medical Director of Staffordshire STP 2017 to date

As the medical director of the STP I am responsible for all aspects of health and social care in the Staffordshire and Stoke on Trent area. As an executive I have oversight of delivering healthcare to a large urban and rural population.
